

CAPABILITY STATEMENT

Nico Projects is a Commercial Construction company with a growing reputation for providing honest, affordable and dependable construction services for our clients.

A reputable, and accredited team of local trades, our service focuses on minor works for our clients through to large scale fit out and refurbishment works.

Our Ageing Community

Nico Projects specialises in providing a multi-layered level of care to construction projects for the aged care community including residential, retirement villages, supported living and in-home care. Building ramps, transforming homes, repairing village assets, and all fit out, and refurbishment works. Nico Projects understands how to work in aged-care environments, ensuring safety, care, and compliance.

Director, Craig Hammond has worked extensively with the biggest aged-care providers in Australia including Uniting Care, Aveo, and The Royal Freemasons Benevolent Institution.

The Nico Projects team works skillfully, in compliance with all legislative requirements, and with compassion to have your spaces functional, operational, and safe. A trusted construction provider returning detailed quotes, taking a collaborative approach, being available on short notice and providing a genuine level of care.
